THURSDAY 4.00 - 7.00PM

CHILD STUDIES
Students learn about children’s growth and development from conception to 8 years and critically examine attitudes and values about parenting and caregiving and gain an understanding of the growth and development of children.

METAL TECHNOLOGIES
The focus for this subject will be a range of metals and metal working processes. Students identify, create, initiate and develop products, processes or systems.

DIGITAL PHOTOGRAPHY
Students learn and apply skills in digital photography, design and photo editing software.

DIGITAL VIDEO
Students gain practical skills and knowledge in the craft of film making. They learn how to shoot, capture, edit and distribute video using consumer and industry standard equipment and software.

GEOGRAPHY
Geography deals with diverse environmental phenomena and human activities, including population, landforms, tourism, globalisation, resources, agriculture, hazards and urban planning. Students develop an understanding of the spatial interrelationships between people, places and environments.

PSYCHOLOGY
The study of psychology enables students to understand their own behaviours and the behaviours of others. Psychological knowledge can be applied to improve outcomes and the quality of experience in various areas of life, such as education, intimate relationships, child rearing, employment and leisure.

HOW TO ENROL
If you are interested in enrolling in any of our programs, please phone the College on 8352 5811 or visit our website at www.tsc.sa.edu.au and follow the prompts in the Study Options section. Most courses are supported by online technologies such as email, podcasts, Moodle.

COURSE FEES
Affordable fees make these courses extremely accessible to all. Centrelink Health Care Card holders may be eligible for SA Government concessions.

THEBARTON SENIOR COLLEGE

Thebarton Senior College is a senior specialist secondary school funded by the SA Government.

The College offers quality education in a wide variety of South Australian Certificate of Education and vocational training courses.

As a United Nations Global Peace School, our students learn in a diverse cultural community that is characterised by positive peace-building relationships.

Located just four kilometres west of the city, it is easily accessed by bus routes 287, 288, H20-H24, H31, H32, B10 and B12 from Adelaide and its suburbs.

YOUR SACE, YOUR WAY

Thebarton Senior College offers Stage 2 students a range of 20 credit SACE subjects in the twilight.

This provides students with:
- A variety of choices
- The chance to study a subject of interest
- Small class sizes
- Supportive and experienced teachers
- The advantages that come with one lesson per week:
  - Increased study time during the day
  - Flexibility to undertake part time employment

You can study 1, 2 or 3 Stage 2 twilight classes at Thebarton Senior College while completing Stage 2 at your school.

The College offers the following twilight options in 2015. If you require any further information please contact Keri Fisher, Assistant Principal Curriculum phone 83525811.

TUESDAY 4.00 - 7.00PM

CREATIVE ARTS - DRAMA
Students explore acting techniques and apply skills gained in a project of their choice. Drama also provides the flexibility to explore other areas such as production, direction or script design.

ENGLISH STUDIES
Students read a range of extended texts and a number of shorter texts from past, contemporary, and everyday contexts. They focus on the skills and strategies of critical thinking needed to interpret texts.

GEOLOGY
Students design and conduct geological investigations and gather evidence from fieldwork, experiments, and research. They have the opportunity to engage with the work of practising geologists. This course is part of the GeoFutures program with links to the mining and exploration industry.

INFORMATION PROCESSING & PUBLISHING
Students will be introduced to designing and producing personal and business documents using Word and Excel. Skills developed are suitable for further study, personal communications and employment.

LEGAL STUDIES
Students learn about the Australian legal system from the local level to its global connections, its origins and functions. Students learn how laws are made and enforced and the legal issues affecting Australian citizens.

NUTRITION
Students explore up-to-date scientific information on the role of nutrients in the body as well as on social and environmental issues related to nutrition. The study of nutrition assists students to reinforce or modify their own diets and lifestyle habits to maximise their health outcomes.

TOURISM
Students develop an understanding of the nature of tourists, tourism, and the tourism industry. They investigate local, national, and global tourism, and explore tourism as a business. Students gain an understanding of the complex economic, social, cultural and environmental impacts of tourism.

WEDNESDAY 4.00 - 7.00PM

CLASSICAL STUDIES
Students study the Greek and Roman classical worlds, including literary texts from the period and an area of the classical world that interests them.

FOOD AND HOSPITALITY
Students learn about the impact of the food and hospitality industry on Australian society and examine the contemporary and changing nature of the industry. They develop relevant knowledge and skills as consumers and/or as industry workers.

FURNITURE CONSTRUCTION
This course provides opportunity for students to demonstrate knowledge and practical skills associated with using systems, processes and resistant materials. This is a woodwork based subject where students design and construct a medium sized piece of furniture.

MODERN HISTORY
Students investigate people, places, events, and ideas in the history of modern societies.

MATHS SPECIALIST
Students gain the insight, understanding, knowledge, and skills to follow pathways that will lead them to become designers and makers of technology. The subject provides pathways into mathematical science, engineering, computer science, physical sciences, surveying, economics and commerce.

WOMEN’S STUDIES
Students look at the world from the perspectives of women and examine the construction of gender and how being a woman or a man may influence an individual’s experiences and expectations. They explore the diversity of women’s experiences and their relationships to others. They also study gender representation in cultural texts.
